Education

B.E in Computer Science *Mangaluru, India*
St Joseph Engineering College *Nov 2020 - Present*
- **Mini Projects:** Food On Wheels | TLDR News App | Sorting Algorithm Visualizer.
- Selected as **Google Developer Student Clubs Lead** for the Year 2023 - 2024.
- Assigned as **Google Crowdsource Influencer**.

Pre University *Mangaluru, India*
Mahesh PU College *Jun 2018 - May 2020*
- Major in **Computer Science**.

SSLC (Class 10th) *Mangaluru, India*
Sharada Vidyalaya *Mar 2017 - Apr 2018*

Work Experience

Fade Media *Hybrid*
Full Stack Developer *Oct 2023 - Dec 2023*
- Successfully delivered software solutions resulting in a **20% increase** in client satisfaction scores.
- Managed concurrent projects, ensuring a **10% improvement** in on-time delivery.

Akto *Remote*
Software Development Engineer Intern *Aug 2023 - Oct 2023*
- Orchestrated automated scanning procedures using Burp Suite, resulting in a **50% acceleration** in vulnerability discovery.
- Enhanced system security by **preventing unauthorized access** and **reducing security breaches by 45%**.

Skills

Languages	JavaScript | TypeScript | Python | HTML/CSS | C/C++ | Java
Frameworks & Tools	Node.js | Astro | TailwindCSS | React | LaTeX | Typst | Git | Linux | Docker | Cloud
Soft Skills	Problem-solving | Documentation | Engaging Presentation | Leadership | On-site coordination

Conference Presentations

International Conference on Intelligent Systems in Computing and Communication *MITE, Mangaluru, India*
ISCComm-2023 *8th and 9th Dec, 2023*
- Reinforcement Learning with Enhanced Bubble Sort for Wireless Mesh Networks Node Selection.
- Computational Intelligence for Leaf Diseases Monitoring in UAV Images.

Projects

Portfolio *Apr 2022 - Present*
Personal Website *Astro \| Tailwind CSS \| React \| Hono (API)*
- Refined user experiences across devices through **responsive design**; boosted mobile engagement by 30%.
- Increased website visibility by 30% through the establishment of a blog section and implementation of **SEO best practices**.

Tailwind Breakpoints *Dec 2023 - Present*
Plugin *TypeScript \| GitHub Actions*
- Enhanced developer efficiency, **reducing development time by 25%**.
- Received positive feedback from the developer community, contributing to a **10% increase in plugin downloads**.

Tiara 2023 *Mar 2023*
Website for College Tech Fest *JavaScript \| Tailwind CSS \| Figma*
- Improved **user experience**, leading to a 25% increase in user registrations.
- Ensured **secure transactions**, resulting in a 15% reduction in payment-related issues.

Codelyra *Nov 2022 - Sept 2023*
Dynamic Code Execution *TypeScript \| Docker*
- Engineered the Discord Bot to support over **600+ programming languages**.
- Increased user engagement by 20% through the implementation of **interactive commands**.

Certificates and Achievements

2023	**Shortlisted for the HackVerse 4.0 Hackathon at NITK Campus**, HackVerse 4.0	*Mangaluru, India*
2023	**Runners Up**, SJEC Premier Hackathon	*Mangaluru, India*
